Take the helm.

Your agents. Your machines. Your direction.

An independent identity for an AI-native terminal
and the self-hosted agent workbench ahead.

One mark. Three connections.

A precise symbol for direction, boundaries and direct interaction.

OAR / DIRECTION

The diagonal oar carries movement and intent.

O / BOUNDARY

The open octagon suggests a workspace you control.

PROMPT / ACTION

An angular cutout echoes a terminal chevron.

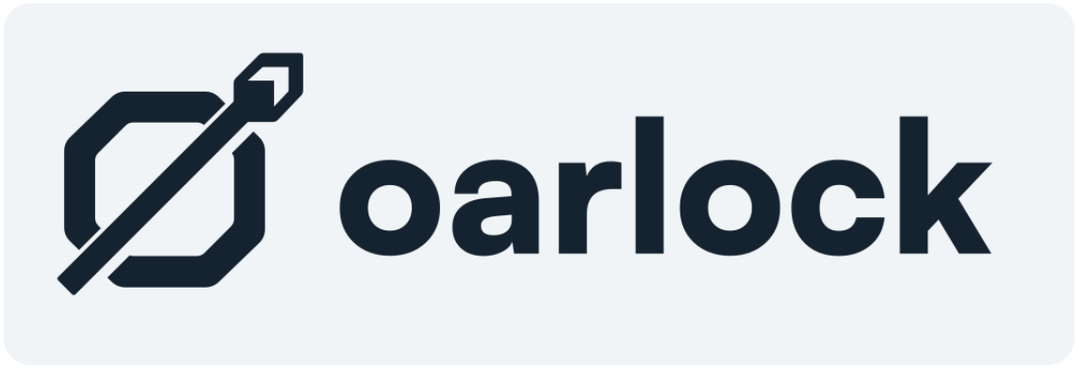

Always use the supplied master artwork.

Keep its flat oar end and subtly eased corners.

A logo for every surface.

Use one-color artwork and choose the highest-contrast version.

Standalone symbol

Outlined wordmark

App tile

Give the mark room.

Preserve the proportions, negative space and diagonal angle.

CLEAR SPACE

Leave at least one shaft width on every side.

Use the padded lockup files without cropping.

MINIMUM DIGITAL SIZE

- 24 px symbol
- 140 px horizontal lockup
- 16 px is reserved for favicons.

KEEP IT CONSISTENT

Do not stretch, rotate, outline or add effects.

Keep the symbol and wordmark in one color.

Quiet color. Clear contrast.

Navy and silver are the primary brand pair.

NAVY

#15222F

Primary surfaces

SILVER

#E9EEF3

Marks on dark

STEEL

#C9D6E2

Supporting copy

NIGHT

#0B141D

Deeper surfaces

WHITE

#FFFFFF

Light surfaces

Use navy artwork on white, or silver artwork on navy.

Steel supports dark surfaces. It is not body text on white.

Geometric. Human. Direct.

A bold wordmark with practical supporting typography.

Satoshi Black

Brand headlines and the supplied outlined wordmark.

abcdefghijklmnopqrstuvwxyz

0123456789 / Your workflow, your control.

INTER

Product UI and longer reading.

Use the existing app family.

JETBRAINS MONO

Terminal output and code.

Keep code legible and literal.

Wordmarks are outlined. Obtain Satoshi fonts directly from Fontshare.

Speak with purpose.

Capable, independent and approachable.

PRIMARY LINE

Your agents. Your machines. Your direction.

CURRENT PRODUCT

An open-source, AI-native terminal for developers.

LONG-TERM VISION

A self-hosted workbench for coding agents
in sandboxes on machines you own.

Write concrete benefits. Name supported features accurately.

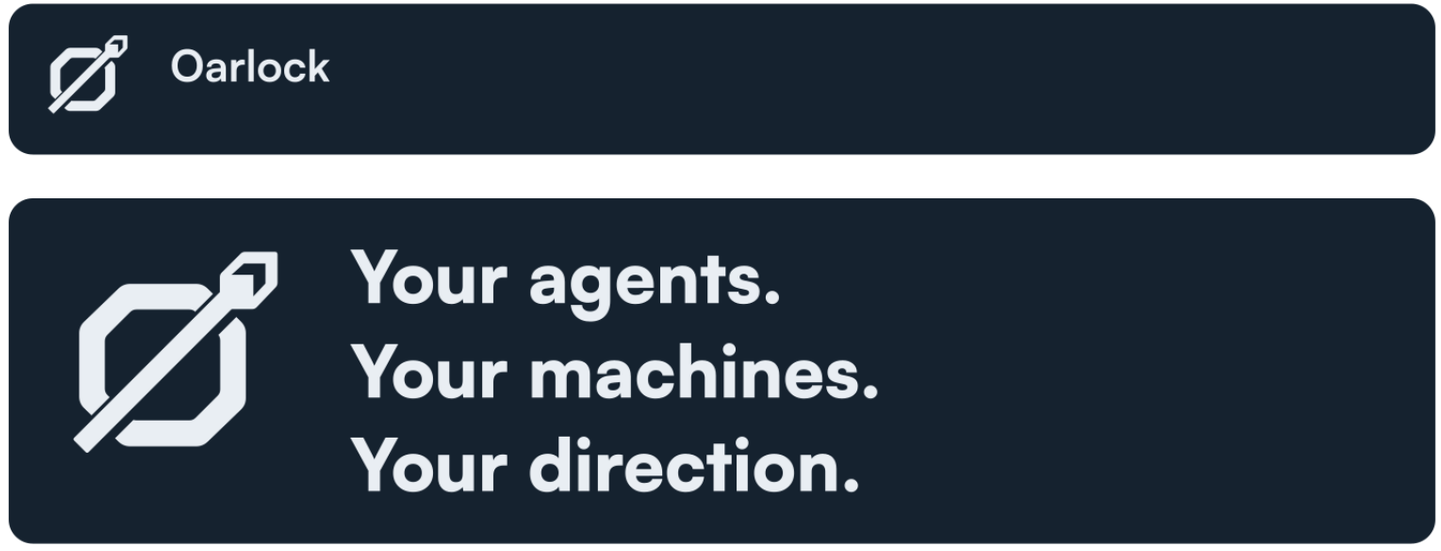

Describe mobile clients and remote sandboxes as vision until available.

Ready for the real world.

One consistent identity across app icons, web and launch assets.

Desktop app

Browser and social applications

Assets are supplied for desktop, mobile and web handoff.
